School Superintendent's Report

Dummer, N. H., February 1, 1932.

To the School Board of Dummer:

I herewith submit my annual report as Superintendent of your Schools showing the conditions and progress of your schools for the last year.

The last complete school year was, as required by law, a thirty-six week year. Counting holidays and institute days, the Schools were actually in session for 174 complete days. The attendance averaged 94.4%, which is practically the same as for the previous year.

The Schools have been visited and inspected by your Superintendent at regular intervals throughout the year. The different classes have been examined in their several subjects and progress carefully noted.

Standardized Tests have also been given during the year which are objective and serve to check up the work of your pupils with the work of similar pupils throughout the country.

As a result of the visits and inspections and tests, I believe the pupils are making progress and in most cases, can do as good and sometimes better work than in the same grades in other schools.

Schools opened the present year with the same experienced teachers as in the previous year. The Willis School has about the same number of pupils as last year. The enrollment at West Dummer is somewhat smaller, there being eleven pupils at the present time.

The Budget of the School Board has been estimated at the lowest possible figure in keeping with good Schools, but as there will be no balance left over at the close of the present year, the amount asked is somewhat larger than last year; when a considerable balance was anticipated.

A table of Statistics for the last complete year follows:
